

Hydrotherapy & Rehabilitation Services

Allandale Veterinary Hospital is pleased to offer rehabilitation and hydrotherapy as an adjunct treatment for your pet. Whether they are recovering from orthopedic surgery, have an unresolved lameness, suffer from arthritis or obesity, a rehabilitation program can help improve mobility, increase muscle mass, reduce pain and stiffness, and accelerate speed of recovery. Canine athletes can even benefit from a tailored program to improve sport performance.

All programs are tailored to the specific patient and evaluations by Dr. Rogers and her Certified Canine Rehabilitation assistant are done regularly to assess improvement. Programs may include any of the following modalities:

- 🐾 Manual therapy
- 🐾 Stretching
- 🐾 Home exercises
- 🐾 In-clinic exercises
- 🐾 Laser therapy
- 🐾 Hydrotherapy
- 🐾 Electrical muscle stimulation

Dr. Lindsey Rogers DVM, CCRT

Dr. Lindsey Rogers is a Certified Canine Rehabilitation Therapist. She graduated from the Ontario Veterinary College, at the University of Guelph, in 2011 and completed her Certified Canine Rehabilitation designation in 2015.
